

BITS Pilani Hyderabad Campus

Centre for Human Diseases

Call for Research Fellows (Multiple Positions)

The Centre for Human Diseases is a consortium of 18 faculty members from the Departments of Biological Sciences, Pharmacy and Electronics and Electrical engineering. The present focus of the centre is to conduct interdisciplinary research on Tuberculosis, Schizophrenia and Oral Cancer. This effort is supported by institutional funding of ~ ₹ 4.50 crores for the next three years. The present call is for motivated young students who wish to pursue their careers in research using cutting-edge technologies.

Research Areas

- Molecular Genetics of Schizophrenia
- Development of Animal models for Schizophrenia
- Diagnostic Approaches for Multiple Drug Resistant Tuberculosis
- Novel therapeutic approaches for treatment of Tuberculosis

Fellowship

Consolidated amount of ₹ 20,000 in the beginning, with an opportunity to register in Ph.D. programme of the institute (if the performance is found satisfactory) as institute fellows or as research fellows under funded projects.

Contact

Prof. K. Naga Mohan (Email: MohanKN@hyderabad.bits-pilani.ac.in)

Last Date for the applications: March 31, 2019.
